## Education

- Computer Engineering
- English Course - 2014

University Positivo  
Duolingo

## Skills and Competencies

- I've been developing for about 10 years, I've worked with maintenance and developing software in some startups and companies. The main focus being C#, javascript, java, Xamarin, Unity.
- Always looking for new challenges, aiming at professional growth, developing with quality for everyone involved in the process.
- Thank you for your attention and I am available to contact you.
- Programming Languages / Technical Skills
  - - C
  - - C++
  - - C# (.NET)
  - - Java
  - - JavaScript
  - - Python
  - Markup Language
    - - HTML5
    - - XML
    - - XAML
    - - LaTeX
  - Data base
    - - SQL server
    - - Oracle
    - - MySQL
    - - SQLite
    - - MongoDB
  - Technologies / Framework`s
    - - Unity
    - - .NET (Mono, Core, Standard)

- - Entity Framework
- - Dapper
- - Xamarin (iOS / Android / Forms)
- - WSO2 ESB
- - Bootstrap - Node.Js - AngularJS
- - jQuery
- - Groovy
- - Ajax
- - RESTful
- - JSON
- - OpenCV
- - EmguCV
- Code Sharing and Versioning
- - Git (GitHub, BitBucket, GitLab)
- - TFS
- **Knowledge**
- Linux (mainly Ubuntu, Debian and Kali Linux)
- Windows
- Analog and digital electronics
- Excel, PowerPoint and Word
- ARM / ATMEL microcontrollers
- Raspberry microprocessor

## Experience

- **Full Stack Dev**
- **Uninter**
- June 2020 - now, Curitiba, Brazil
- Support of legacy MVC systems and refactoring of legacy code, integration and development of new .Net Core APIs and features. Integrations with international payment systems and ERP.
- Implementation of Pix, Boleto, Credit Card, Automatic Debit, BACS and SEPA.
- **Full Stack Dev**
- **TCP TI**
- October 2018 – May 2020, Curitiba, Brasil
- Development and maintenance of internal systems involving the operation of the port of paranaguá, with a greater focus on backend integrations.
- **Senior Developer**

- **Britania/Philco**

- July 2018 – November 2018, Curitiba, Brasil
- Maintenance in internal systems using Razor MVC.

- **Computer Engineering**

- **4Vants**

- May 2017 – May 2018, Curitiba, Brasil
- Research, testing and development of photo capture techniques using UAV (unmanned aerial vehicles), focusing on photogrammetric. Processing, filtering and converting photogrammetric data. Development of WEB viewer for data presentation. Development of C # applications to optimize the daily service by automating tasks. Necessary documentation issued for release of flights UAS, maintenance and inspection of integrity. Piloting UAS in field service and other tasks.

- **Research and development intern**

- **SmartMatrix**

- July 2015 – May 2017 Curitiba, Brasil
- Application Development with the Unity Graphics Engine, Programming in C, C #, application development / migration in FrameWork XAF. Development of 3D models with real scale and high accuracy with the PIX4D application. Maintenance and repair of drones software and hardware. Project development using the NAZA / PIXHAWK and APM controller boards. Participation in lectures and technology events in the area worked mainly at the IEP (Engineering Institute of Paraná).

- **Aspiring Official Reserve**

- **Brazilian army**

- February 2014 – November 2014 5 B° LOG
- I attended 10 months of intensive training for Aspiring Official Reserve. Fulfilling a total workload of 1428 hours where several important topics were addressed among them: discipline, punctuality, financial administration, current events, incentive to reading, sports practice, among others more specific.

- **Event Promoter**

- **Dimarula Events**

- February 2012 – November 2013 Curitiba, Brasil
- Disclosure of the company's projects both at social and corporate events through folders, flags, posters.

- **Administrative Assistant**

- **URBS**

- June 2011 – November 2011 Curitiba, Brasil
- Management, printing, delivery, collection and organization of paperwork regarding the compliance with bus schedules in Curitiba and the metropolitan region.
